- with the percentage of 64.00

LANGUAGES

English

Gujarati

Hindi

PROFILE

I have always had a knack for technology and working with computers. Fascinated with how intricate programming can be i was quickly drawn to learn more. I started learning JavaScript and was even more enthused with making Websites Interactive. I'm very dedicated to learn new things and to truly believe that i should never stop learning. I enjoy creating different things, whether that be websites, application or anything in between.

PROJECTS

MovieMetropolis | *GITHUB*

- College gave me a project to make clone of any website with frontend and backend. So I made a MERN project with a team of 4 members.
- It took 1Month 13Days to complete the whole project.
- Made valuable contributions to writing clean code.
- Responsive web design.
- Tech Stack: React JS, MongoDB, Express JS, Node JS.
- For your Reference: <https://movie-metropolis.vercel.app/>

Balwa Car Cool | *GITHUB*

- This is our first Client Project.
- I made it with team of two person.
- It took 1Month 20Days to complete the whole project.
- Made valuable contributions to writing clean code.
- Responsive web design.
- Tech Stack: HTML5, CSS3, JavaScript, Bootstrap5.
- For your Reference: <https://www.balwacarcool.in/>

WestCoders | *GITHUB*

- This is our personal agency project.
- I made it with team of two person.
- It took 1Month 10Days to complete the whole project.
- Made valuable contributions to writing clean code.
- Responsive web design.
- Tech Stack: React JS, React Bootstrap.
- For your Reference: <https://westcoders.vercel.app/>

Chem-Proof Pumps

- This is our second Client Project.
- I made it with team of two person.
- It took 2Month 10Days to complete the whole project.
- Made valuable contributions to writing clean code.
- Responsive web design.
- Tech Stack: HTML5, CSS3, JavaScript, Bootstrap5, PHP.
- For your Reference: <https://www.chempproofpump.com/>
